

CSI should rein in request for Boise

Feb 9, 2006 - Letter-to-the-editor - TWIN FALLS TIMES-NEWS

I agree with your headline, "Not so fast, CSI," on its ambitions to go into Boise State University territory.

First, I want to state that I am a firm support of the College of Southern Idaho. I received my registered nursing degree from CSI. I am very pleased with the nursing department and the level of learning I received.

The CSI administration was good to work with the returning adult, as well as the traditional student.

The thought of CSI entering into the Boise higher education market after recently observing the hole that the University of Idaho dug for itself makes me fearful of any such attempt.

Please, CSI, keep your focus on the Magic Valley and improving the existing facility to serve all who desire to come here to participate in an increasingly great trade and junior college -- CSI.

DALE DRAGE

Rupert
